

German Black Metal Kommando!

During the cold moons of the year MMXII, two Metal musicians decided to combine their creative forces ... and formed PESTLEGION. From this alliance, the band developed into a four piece and the 4 track EP "March to War" emerged, on which PESTLEGION is spewing their hatred in the face of humanity.

On their 2014 EP 'March To War' and 2017 LP/CD 'Dominus Profundum' you will hear hymns of apocalyptic Black Metal in the vein of the 90's - Fast and furious ... creating an ice cold atmosphere. PESTLEGION is a traditional Black Metal band who favors what made Black Metal famous in the 90's: uncompromisingness on an advanced technical level.

Summer 2018 sees the release of their 7"-EP 'Entsage Gott' through the underground label Bleeding Heart Nihilist Productions. Promoting this and their debut 'Dominus Profundum' the band played several stages in ashes, nationally and internationally. Among others PESTLEGION played with bands like Soulburn, Unlight, Evil Invaders or Abbath's B6mbers.

2022 PESTLEGION signed a two-album-deal with French underground maniacs OSMOSE Productions. The second album 'Sathanas Grand Victoria' will be out soon!

So be prepared for a piece of misanthropic Black Metal the old school way!
